

## NFTS

You have opened a position of 24,000 lots ENJUSD at the price of 0.46996 USD.

### Total Volume:

$$24,000 \text{ Lots} \times 1 \text{ (contract size)} \times 0.46996 \text{ (opening price)} = 11,279.04 \text{ USD}$$

In case, the aggregate notional USD value of the open position on ENJUSD is greater than 10,000 USD but less or equal to 20,000 USD, which falls within Tier 1, and 2, therefore, leverage of 1:50 is provided for the first 10,000 USD, and leverage of 1:20 for the remaining 1,279.06 USD.

### CALCULATIONS:

$$10,000 \times 1/50 = 200 \text{ USD}$$

$$1,279.04 \times 1/20 = 63.952 \text{ USD}$$

$$\text{Margin requirement} = 263.952 \text{ USD}$$

Account currency is BTC, therefore  $263.952 / 21,000$  (BTCUSD price)

$$\text{Margin requirement} = 0.012569 \text{ BTC}$$
